EXPERIENCE

Barclays Global Service Center Pvt Ltd

Software Engineer

Jul 2023 – Present

Hybrid

- Designed and re-implemented an event-driven notifications platform using REST APIs with a microservice architecture and SQL, processing 250K+ notifications monthly. Implemented KAFKA-based retry mechanisms to ensure reliable message delivery.
- Developed modular UI components using React.js as part of a Micro Frontend architecture for a legacy enterprise application.
- Engineered seamless password rotation for 20+ containerized applications on OpenShift using a modular runtime credential library, ensuring zero downtime and improved security.
- Remediated vulnerabilities across 30+ microservices using Veracode, SonarQube, and Prisma, applying secure coding practices and fixes, achieving a 90% reduction in reported security issues.
- Developed and maintained CI/CD pipelines using Jenkins, Maven, and Kubernetes, automating builds and enabling cloud-native deployments.
- Enhanced code quality with JUnit and Mockito and ensured platform stability through Java 8 to 21 migration, regular Docker image upgrades, and monitoring with ELK stack.

One Percent Ltd

Mobile App Developer Intern

Jan 2022 – Feb 2022

Remote

- Designed and developed a Flutter-based tutorials app UI, improving learning accessibility for 1,000 potential users by enabling streaming video lessons and accessing PDF materials from a backend database.
- Added support for displaying 15+ categories of research papers and integrated a news feed via an existing REST API, increasing content variety and user engagement by an estimated 20 percent.

EDUCATION

K.J. Somaiya College of Engineering

B.Tech. in Computer Engineering

2019 – 2023

CGPA: 9.27 / 10.0

PROJECTS

StockRack — Django + MySQL app with user login, REST APIs, and a dashboard to track stock holdings, returns, and transactions. Includes filters, visual insights, and back-end error handling via custom middleware.

Glance — Angular + Spring Boot + SQL Server app to upload, manage and share pictures with user authentication, REST APIs, and intuitive user interface. Enabled fast uploads and secure storage with streamlined logic.

SKILLS

Languages: Java, Python, C++, JavaScript, SQL, Dart

Frameworks: Django, Spring Boot, Node.js, Flutter, React

Databases: MySQL, SQL Server, MongoDB

Tools: Git, Docker, Jenkins, Kubernetes, OpenShift, Kafka, Firebase, Veracode, ELK Stack

Concepts: REST APIs, SOAP, Microservices, CI/CD Pipelines, Micro Frontend Architecture
